

There's never been a better value in practice management.

Introducing Medisoft v15, now with Medisoft Reports and Medisoft Clinical to give you more — at the low price you've come to enjoy.

Get Medisoft v15 now for 20% off! Discount valid for upgrades from Medisoft v12 and v14. Offer ends March 25, 2009.

### It's all about value.

The Medisoft® practice management system from McKesson has long been considered the best value on the market. Now it's even better. Medisoft Version 15 (v15) gives you a new level of features, capabilities and value — the perfect money-saving solution for your practice in these challenging financial times.

Leading the way for a value-packed release is the new Medisoft Reports module. It offers 228 reports (standard in Medisoft Advanced and Medisoft Network Professional). So Medisoft v15 users have the same — or better — reporting capabilities of much more expensive practice management systems.

### Medisoft Clinical ups the ante.

Medisoft Clinical is a combined practice management/electronic medical record (PM/EMR) solution built with affordability in mind. It includes Medisoft v15 plus a proven EMR that has helped thousands of practices provide exceptional quality and improve financial performance.

Here are many of the enhancements you'll find in Medisoft v15.

- **Missed Co-pay Remainder**  
Statement reflects missed co-payments as part of a patient's balance
- **Write-off Option** enables users to limit searches to statements that have been sent a certain number of times to quickly identify small balance write-offs
- **The Statement Management grid** has been expanded to show the remainder balance, making it easy to identify accounts with balances
- **Chart Number Hot-key** populates the chart number for the last patient accessed in all windows that contain a chart number selector feature
- **Quick Ledger Edit Option** enables users to modify existing notes and create new ones
- **Print Blank Superbills** for walk-in patients
- **Future Appointment Warning** message on the appointment entry screen indicates a prior scheduled appointment

**Medisoft Reports (formerly Focus Reports Standard) is a new module in Medisoft Advanced and Medisoft Network Professional, giving Medisoft users access to 228 standard reports. That means existing Focus Reports users will have everything they enjoy today all in one program supported by McKesson, while all other Medisoft users will enjoy a whole new level of reporting.**

**Medisoft Reports Professional (available as an add-on product) offers 368 reports, as well as the ability to run reports at scheduled times, deliver reports via e-mail, edit standard reports and create custom reports.**
